RANCHO TECH CENTER

The Rancho Tech Center is located in the South Bay area of Los Angeles County at the northwest corner of West Victoria Street & S. Wilmington Ave. in Rancho Dominguez-Carson-Compton, Los Angeles County. This mixed-use business park is situated one quarter mile south of the Artesia Freeway (#91) at the Wilmington exit. The property offers 311 feet of frontage on Wilmington and 575 feet of frontage on Victoria, the two major five lane arteries in Rancho Dominguez.

The Rancho Dominguez area offers superior freeway accessibility via #91, #405, #110, #710, #105, #5 and #605 and minimal commuting times to LAX, Ports of Los Angeles and many areas of Los Angeles.

The Rancho Tech Center offers light industrial, flex and, at the street front, an international food court, occupational medicine and various staffing agencies.

The Rancho Tech Center presents a unique opportunity to provide distribution, assembly, showroom warehouse or essential services of front or backroom office, flex, laboratory at substantially less than the cost of LAX, Torrance, Westside LA or Irvine locations. Each flex space offers a mix of office, showrooms, bathrooms, warehouse, storage with overhead doors in the rear and 16' clearance inside the warehouse portion.

The major economic spheres of influence in the area are the Dominguez Technology Center, a Foreign Trade Zone, the Ports of Los Angeles and Long Beach and LA International Airport. The Ports of Los Angeles and Long Beach are the largest Ports in the U.S. and the third largest in the world. This economic powerhouse, the gateway from and to the Pacific Basin, is located seven miles to the south of Rancho Tech Center and generates about \$250 billion dollars in annual economic trade for our region.
