THE Q BUILDINGS, CAXTON WAY, OFF GUNNELSWOOD ROAD, STEVENAGE HERTFORDSHIRE, SG1 2DF

LOCATION

Centrally located in the main Gunnels Wood commercial area the site backs on to the A1(M) and is within convenient walking distance of the station and town centre.

It is a regular shape fronting on to Caxton Way with alternative rear access from Potters Lane. There is an additional strip of land on the west side of the road providing a continuous row of car parking. This could facilitate a very efficient use / development configuration to maximise density and subdivision.

Potters Lane and Caxton Way are both adopted and therefore there is no estate service charge.

STEVENAGE

Stevenage is a vibrant commercial centre with strong representation in the aerospace, defence and life science sectors.

It is located between Junctions 7&8 of the A1M approx. 32 miles north of Central London.

Stevenage intercity station is in easy walking distance and provides a regular fast non-stop service to Kings Cross / St Pancras (Europe's leading transport hub) in around 19 minutes.

London Luton and Stansted airports are conveniently close.

Stevenage offers a full range of services including a leisure park, major out of town retail development, major town centre and the attractive old town area with its range of pubs and restaurants.

The surrounding villages offer attractive housing and pub/restaurants

ACCOMMODATION

A self-contained complex prominently fronting Caxton Way, with alternative access from Potters Lane.

The complex comprises a main single-storey industrial/workshop facility of concrete frame construction beneath a felt roof.

The southern and central sections are arranged in eight bays, with a single-storey former office / ancillary area fronting Caxton Way.

The northern section provides a range of workshop and ancillary office/storage accommodation.

There are external yard areas to the rear and side.

The site has been intensively used for plant storage by the current owner over many years. Capital investment is now likely to be required either to refurbish and restore the existing buildings or to pursue redevelopment, subject to the necessary consents.

The property is available for purchase in its entirety, or possibly by way of subdivision from approximately 10,000 sq ft. Details on request.

Site survey and desktop environmental reports are available.
