Description

The property comprises a mid-terrace workshop building of steel portal frame construction, with brick infill walls and a profile steel sheet roof.

The unit is arranged predominantly as clear workshop space, with two small offices formed by demountable partitioning positioned to the side of the main loading door, allowing the principal workshop area to remain largely unobstructed.

The accommodation benefits from a WC, fluorescent tube lighting, concrete flooring and three-phase power.

A door within the dividing wall provides access to a separate adjoining workshop, which benefits from its own loading door.

Externally, the unit benefits from approximately four dedicated car parking spaces.
