As a leading property developer local to the Midlands, we are committed to creating developments that are sustainable and deliver meaningful value to the community. We have developed over fifteen million square feet of award-winning commercial space and whilst we are one of the UK's largest private property companies, our approach remains agile, enabling us to navigate challenges and consider our impact.

Our Sustainable Futures Strategy reinforces our commitment to sustainability and as part of this framework, Stratford 46 will benefit from its own project community fund, providing direct support to grassroots organisations and local initiatives that deliver invaluable services. Our team will also volunteer with local groups, contributing time and expertise, and through our Education Programme, we will engage with nearby schools, colleges, and education providers to offer valuable learning opportunities.

As part of our commitment to biodiversity, Stratford 46 will also feature a dedicated nature reserve – seventeen acres of thriving green space designed to support native flora and fauna and future occupiers of the scheme. We're transforming former agricultural land, which has been stripped of its ecological value, and creating a vital corridor for nature and biodiversity which will establish a rich variety of habitats and act as a carbon sink, whilst ensuring a wildlife-friendly ecosystem for the future.
