## DESCRIPTION

The property comprises a substantial headquarters industrial/warehouse facility constructed around a steel portal frame, with insulated profile metal clad elevations beneath a clad roof. The building provides high-quality distribution and manufacturing accommodation, featuring a prominent glazed frontage and integral two-storey offices, which can readily be adapted for storage, procurement or packing uses.

The warehouse offers predominantly clear-span space, accessed via multiple loading doors, and benefits from a significant power supply via an on-site substation, making it suitable for a wide range of industrial and logistics occupiers.

Internally, the office accommodation provides a combination of open plan and cellular space arranged over two floors, together with ancillary staff facilities. A double-height reception atrium creates a strong corporate identity. These areas could be reconfigured to support more distribution-led uses, including packing, procurement and e-fulfilment operations.

Externally, the property sits within a self-contained, secure site, benefiting from dedicated yard areas, separate car parking and expansion land, offering future development potential (subject to planning).

## LOCATION

Wellingborough is an established industrial and logistics location within the East Midlands, strategically positioned between London and Birmingham.

The town benefits from excellent road communications via the A45, which connects directly to the M1 (J15 & J15A) and the A14, providing access to the M6, A1(M) and wider UK motorway network.

Wellingborough railway station provides regular mainline services to London St Pancras International in under an hour, together with connections to the Midlands and the North.

The property is situated on Finedon Road Industrial Estate, one of the town's principal industrial locations, approx 2 miles north-east of the town centre.
