SLEAFORD MOOR ENTERPRISE PARK IS A NEW ENVIRONMENTALLY CONSCIOUS EMPLOYMENT SITE IN SLEAFORD, THE HEART OF LINCOLNSHIRE.

The park offers high quality units with energy-saving features in an attractive landscaped setting to serve the needs of growing businesses and unlock further economic and employment growth.

SPACE AVAILABLE

Infrastructure work is programmed to complete in 2023 followed by phased development of units made available for leasehold and ranging in size and use (E(g), B2 and B8 use classes, rent on application).

Bespoke units can be provided on a design and build basis, being available to let on terms to be confirmed.

All units will be built with sustainability and adaptability in mind. Eco-conscious measures including energy saving features within units and a substantial landscaping scheme for the site support the Council's aim, together with businesses and communities, for North Kesteven to be carbon neutral by 2030.
