Property

Stonebridge Business Park is a brand new development delivered by a very established local developer, South Lincs Construction. It is located on a prominent position with quick access to the A16. The first phase of the development will accommodate 10 brand new units delivered to a high standard with two being hybrid.

Units 9-10, with a target completion date of October 2025, will be the only hybrid units within the first phase. These units comprise brand new high specification hybrid units consisting of a steel portal frame surmounted by corrugated sheet cladding and fully insulated flooring. The units will have electronic roller shutter doors, which are 3.5 metres by 3.5 metres. On the ground floor, staff facilities will be installed, including a disabled WC and a kitchenette. Prospective purchasers have the option to receive a bespoke fit out for the first floor, as per their requirements, at an extra cost.

There is also the option to customise the units to cater for any specific needs, which will be subject to a build contract.

Accommodation

Having measured the units in accordance with the prevailing RICS Code of Measuring Practice, we calculate that they provide the following floor areas.

Area	m ²	ft ²
Unit 9 Ground Floor	94	1,011
Unit 9 First Floor	94	1,011
Unit 9 Total	188	2,022
Unit 10 Ground Floor	94	1,011
Unit 10 First Floor	94	1,011
Unit 10 Total	188	2,022
Total GIA (both units)	376	4,044

Energy Performance Certificate

Rating: To be assessed.

Services

We understand that mains services, including water and electricity, will be available for connection. Further details are available on request. These have not been tested and are not warranted to be in working order. Interested parties are advised to make their own investigations to the relevant utility service providers.

Town & Country Planning

We understand that the units have consent for uses falling within Class E(g) (Commercial, Business & Services Use) of the Town and Country Planning (Use Classes) Order 1987 (as amended 2020).

Interested parties are advised to make their own investigations with the Local Planning Authority.

Rates

Charging Authority:	Boston Borough Council
Description:	To be assessed
Rateable Value:	To be assessed

Please click on the below link for an indication of the likely annual business rates payable.

[Estimate your business rates - GOV.UK](#)

Multiplying the Rateable Value figure with the UBR multiplier gives the annual rates payable, excluding any transitional arrangements which may be applicable. For further information, please contact the Charging Authority.

Tenure

The units are available Freehold **For Sale**.

Price

Unit 9 - £250,000

Unit 8 - £250,000

Units are available individually or in multiples.

The developer can customise and fit out to suit purchaser requirements, subject to availability and a build contract.

Service Charge

A service charge may be levied to cover the upkeep, maintenance and repair of all common parts of the development.

VAT

VAT may be charged in addition to the price at the prevailing rate.

Legal Costs

Each party is to be responsible for their own legal costs incurred in documenting the transaction.

Anti-Money Laundering

Prospective purchasers will be required to provide confirmation of their source of funding and pass the necessary Anti-Money Laundering checks undertaken by the agents prior to instruction of solicitors. Further information regarding these requirements will be provided in due course.

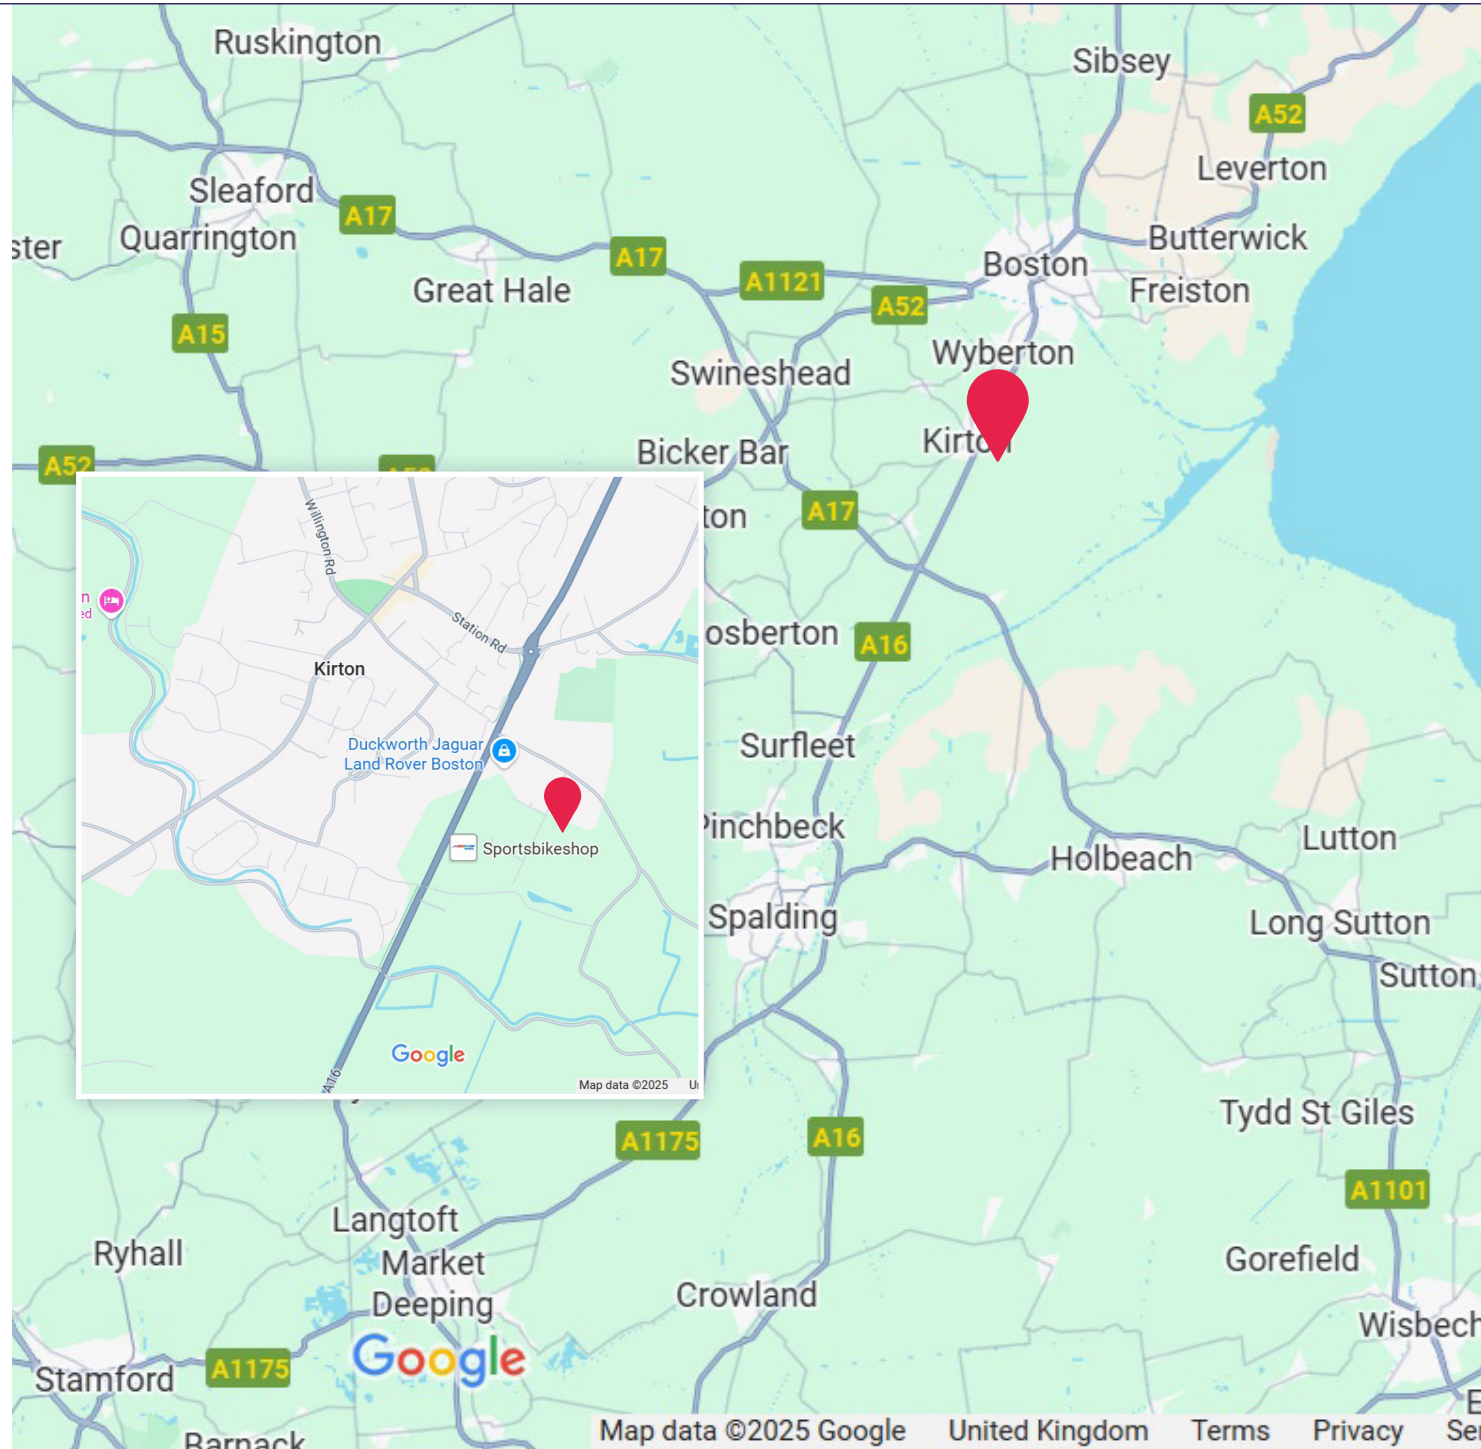

Location

Stonebridge Business Park is conveniently positioned on Avalon Road, directly accessed from the A16. The area is already home to a number of well-established occupiers, including Sports Bike Direct, Duckworth Land Rover, ICAN Kitchens and Trade Windows, alongside other successful businesses.

Kirton itself is a thriving and growing community situated in the heart of the South Lincolnshire Fens and close to The UK's Food Valley, with the regional town of Boston immediately to the north.

Kirton benefits from excellent connectivity, with direct access to the A16 and close proximity to the A17 and A52 trunk roads, providing strong transport links to the Midlands, East Anglia, and the north. Boston, which sits immediately to the north, has a population of around 85,000 and offers a vibrant mix of retail, leisure, and healthcare amenities, including a major hospital and an active port.

The town benefits from regular bus and rail transport links. Peterborough Station, approximately 40 minutes away by car, offers direct services to London King's Cross in under 45 minutes. Geographically, the town lies around 37 miles south east of Lincoln, 35 miles north of Peterborough, and about 115 miles north of London.

ALL DIMENSIONS AND SETTING OUT ARE TO BE VERIFIED ON SITE AND ALL DISCREPANCIES REFERRED TO THE ARCHITECT BEFORE WORK COMMENCES. COPYRIGHT RESERVED

PLEASE DO NOT SCALE FROM THIS DRAWING

General Private Drainage Notes:

1. This drawing is to be read in conjunction with all relevant SRC and Architects drawings and project specifications.
2. All drainage works shall be carried out in accordance with the relevant parts of BS EN 752 'Drains and Sewer Systems Outside Buildings', the current Building Regulations and the Local Authority Building Control specifications and requirements.
3. The location, size and depth of all existing drains/sewers and services shall be established and confirmed by the contractor prior to commencement of works on site. Any discrepancies from the information indicated on these drawings shall immediately be brought to the attention of the engineers.
4. All pipes shall be laid with soffits level u.o.o. All manhole/inspection chamber invert levels shown are for the outlet pipe u.o.o. All pipe runs shall be laid to the levels indicated.
5. All private foul and surface water pipes to be 100mm unless stated otherwise. With minimum falls to comply with Building Regulations Part H.
6. All RWP's & SVP's connections to be 100mm dia (unless specified otherwise by the Architect). Roof gully connections to be 150mm dia.
7. All RWP's, SVP's and connections are shown indicatively or to the latest Architects drawings. Position of down pipes must be confirmed from Architects drawing before laying underground pipework. All down pipes should be provided with a roadside access point above the FFL.
8. All private drainage laid within 1m from tree canopies and hedges to have concrete bed and surround.
9. Filled ground or soft spots must be excavated, backfilled and consolidated before any drainage works are carried out.
10. No water should be allowed to discharge from any private drives onto the adoptable highways. All private gullies and channel drainage positions shown may vary to suit on site working conditions.
