Peterborough

Peterborough has a variety of office spaces, ranging from large corporate buildings to smaller, more flexible workspaces. Demand for physical office is increasing as businesses adapt to hybrid working models but tenants are looking for the best quality office space with inspiring and collaborative workspace, as well as access to amenity. Peterborough's city centre and nearby business parks are prime locations for office spaces. The city has excellent rail links to London, making it an attractive base for businesses looking for proximity to the capital without the high costs associated with office space in London. Development and regeneration projects such as ARU Peterborough, the IEG Green Technology Centre, Cygnet Bridge and Peterborough Station Quarter station improvement works are all helping improve demand for the City Centre.
