Community. Elevated.

With an active events programme, specially curated to encourage moments of collaboration and stimulate new thinking, Bruntwood SciTech provides the perfect setting for business growth and elevate your team's experience.

But don't just take our word for it, here's what our customers have to say:

“

I am convinced we have the best office Landlords in the game! Bruntwood SciTech really go above and beyond for us when it comes to the FREE events they put on for their tenants. Tonight we were treated to cocktail making, a salsa lesson and a delicious spread. Not to mention, the book clubs, summer festivals, breakfast club, Michelin star meals, Chinese New Year celebrations, Eid al-Fitr, massages, arts and crafts classes, the list goes on and on! Thank you for such a great night & so good to meet so many new friends from different offices!

Customer from Innovation Birmingham

“

As a lone worker I really value the opportunity to get out of the office and spend time with people outside my field. Bruntwood SciTech team members make it so easy and welcoming to all.

A culture of sustainability

Recognising the urgency of the climate crisis, and driven to create change from within the commercial property sector, we're committed to developing a sustainable and fair future for our communities by reinventing with the planet in mind in four key areas:

Investing in renewable energy - all common areas, serviced offices and our own offices are using grid-supplied electricity generated from renewable sources

Upgrading existing buildings - for instance, by changing gas-fuelled boilers to air source heat pumps, which release less carbon emissions.

Creating new, net zero buildings - our new buildings are net zero in construction and operation (in common areas), and don't use fossil fuels to provide heating and hot water.

Recommending sustainable interior design options - from carpets to lighting, our team can suggest environmentally friendly design choices that match your budget.

To power more of our spaces with renewable energy, we've purchased an industry-first 42.4% stake in Kirk Hill wind farm, based in Ayrshire, Scotland.

Electricity created by the wind farm will be allocated to our offices, serviced spaces, and common areas*, a significant milestone on our path to net zero.
